Introduction

M/S OM MOTOR'S & CONSTRUCTION

One of the reputed company having ISO: 9001 & 14001 along with OHSAS 18001:2007 in Solid & Liquid waste management and committed towards creating a quality waste collection, transportation, processing & recycling program to assist the Organizations in treating their waste in a scientific & safe manner.

About us: **M/s Om Motor's & Construction** a emergent & efficient service provider in the field of municipal solid waste management, construction & demolition waste management, bio remediation of dump site (Legacy Waste), Geo-Technical Services, GIS, Remote Sensing, Waste Management products related to decentralised model of municipal solid waste management (Organic waste converter, Bio gas plant, PET bottle crusher unit, Compactor unit) etc, segregation of waste & recycling and Composting.

Backed by reach Industries Experience, we are engaged in successfully offering complete Project handling services that is aimed at building a clean, healthy and self-sustaining environment. Meant for welfare of human capital and environment, our wide range of services is backed by Extensive research that helps us to successfully accomplish various challenging projects. Our well planned &executed methodologies have also allowed us to successfully customers with services in a more streamlined manner.

Further, for achieving Smother business operations, we have Segregated our operations under various department like data Analysis and Managements, Research and Field work, Professionals handling these departments ensure that every task is performed as per the requirement of our Clients Apart from our clear as well as flexible methodologies, we are also well equipped with latest facilities that allow us to correctly execute our work procedures.

"Door to Door Collection of MSW" means and includes solid or semi-solid domestic waste, sanitary waste, commercial waste, institutional waste, catering and market waste and other non-residential wastes, collected from the source of generation and transfer to the processing facility without touching groan in any case in the Area Hariparwat zone under Agra Nagar Nigam.

Solid Waste management is fast coming to be recognized as priority area requiring intervention, if life in urban areas is to be sustained and improved. The menace of municipal solid waste/garbage and slaughter house waste is increasing everyday on account of growing population, limitations of existing infrastructure and technologies for its management. In this light, M/s Om Motor's & Construction, Jhansi has been engaged into municipal solid waste management in the city for the following services.

Scope of Work

- 1- Door to Door collection of Municipal Solid Waste within the allotted zone i.e. Hariparwat.
- 2- Information, Education, Communication (IEC) for Segregation and storage of Domestic Hazardous waste.
- 3- User charge collection from the service area and deposition in the account of Agra Nagar Nigam.

Execution Plan

1- Primary (Door to Door) Collection of Municipal Solid Waste

The Methodology for door to door collection: following are the vehicles which shall be deployed for door to door collection according to roads/streets and density of the area. The capacity of the vehicle to cover house hold & commercial properties as below.

- 1- Auto Tipper: Approximately average coverage of 900 to 1500 properties.
- 2- Tricycle: with Eight detachable bins of 60 ltrs approximately coverage of 250 to 300 properties.

Auto Tipper (2 Cum)

Tricycle with 8 Detachable Bins
